

Evaluation

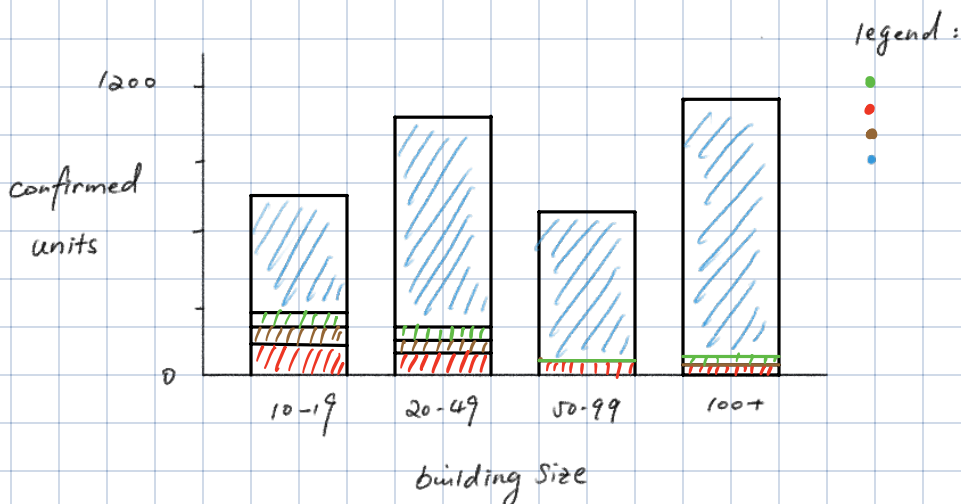

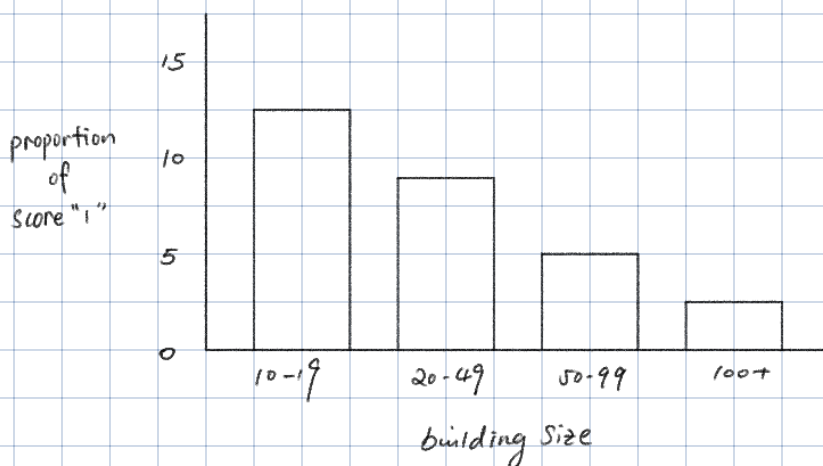

- Tenant Service Log
- Pest Control Log
- Maintenance Log

Feature

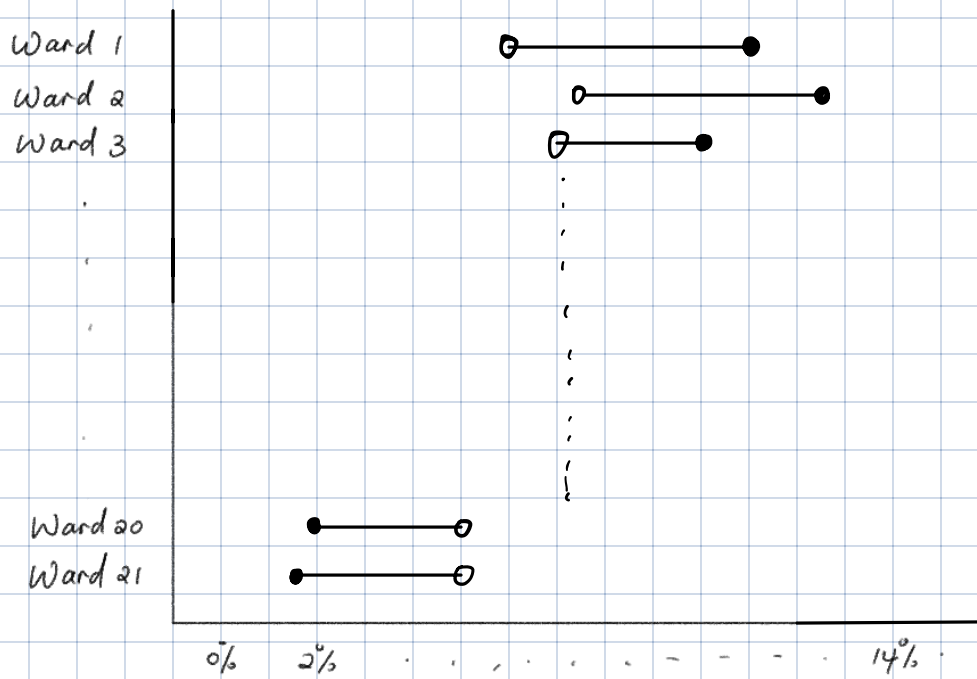

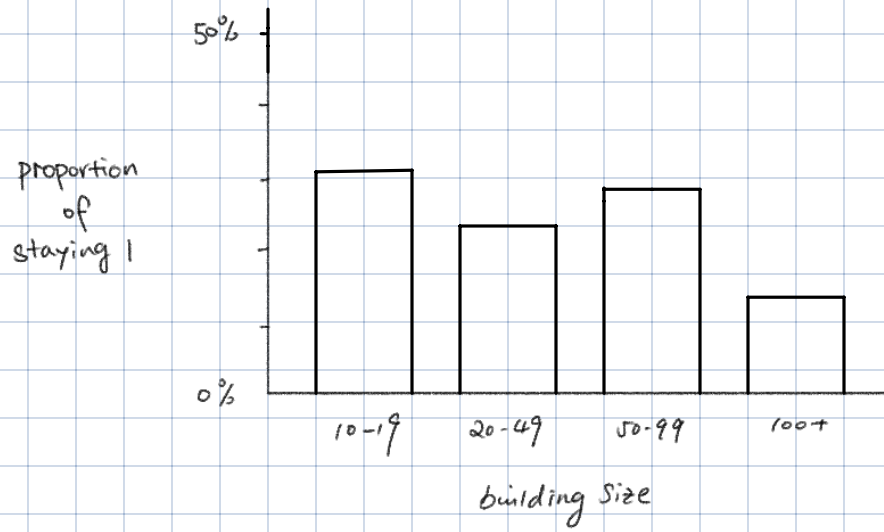

- Building Size
- Building age
- Ward

Graphs

- Main graph: log score vs. building size . bar graph
- score '2' will be ignored as it holds no practical value for the first graph
- building size will be a categorical variable with 4 groups
- for y, I will set the proportion of score "1" to demonstrate the difference in a clearer way

◦ Secondary Graph: log score remaining 1 vs. building size

Legend ◦ Benchmark
• Observed

• Introductory graph: distribution of building size, histogram.
